

DERBYSHIRE JOINT AREA PRESCRIBING COMMITTEE (JAPC)

Individual Funding Requests (IFR)

The CCG is required to have a process for considering funding for individuals who seek NHS commissioned services outside established commissioning policies. There are in general two types of requests that come before an IFR Panel, namely:

1. Requests for funding for treatments for medical conditions where the CCGS have no established commissioning policy (as shown by CCG policy or the treatments which are approved for routine funding in service agreements).
2. Requests for funding for treatments for medical conditions where the CCG does have an established commissioning policy for that condition but where the requested individual treatment is not in the CCG policy or does not meet the criteria set out in the policy.

If you would like to speak to someone regarding IFR please telephone Amanda Bradley, Commissioning Support Manager Tel no: 0115 931 6129.
